

ACCLIPPOINT

PIN POINTER

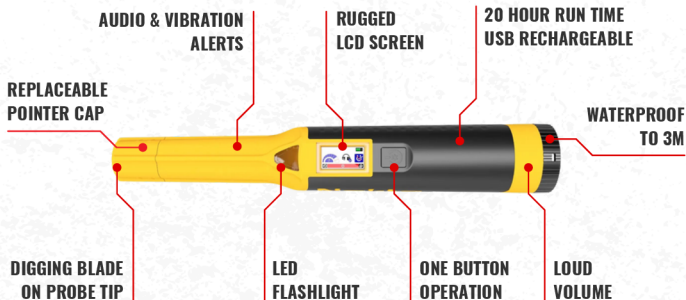

ACCUPPOINT

PIN POINTER

RETRIEVE TARGETS SMARTER & FASTER

Second only to your full-sized metal detector, a pinpointer is one of the most important tools when metal detecting for coins, relics, jewellery and more. The Nokta AccuPOINT sets itself apart as the most well-thought-out and easy-to-use pinpointer, making the detecting experience smoother and more fun! AccuPOINT features an unbeatable combination of features including Iron vs. Non-Iron audio (Discrimination), Bluetooth Connectivity, LED Flashlight, USB-C Rechargeable Battery and a fully waterproof design (to 3 metres). With the colour LCD backlit screen, you can feel confident of your settings at all times, as well as easily adjust them (sensitivity, volume, modes, or power on/off).

IRON/NON-IRON AUDIO

Produces different tones on iron/non iron targets (ferrous vs. non ferrous).

WATERPROOF TO 3M

Search around or in water with confidence, waterproof down to 3m.

DETECTION ALERTS

Audio and/or Vibration alerts let you know when a target is found.

BLUETOOTH ENABLED

Pair with your Low-Latency Bluetooth Headphones for seamless audio.

RAPID RETUNE

Tune out mineralisation and ground noise with the single press of a button.

2 YEARS WARRANTY

Backed by a 2 Year Australian Warranty supplied by your local service centre.
